

DIEGO SAMUEL GALVIS TAPASCO

Software Developer | Full-Stack | Cloud & AI

Calgary, AB | (825) 343-7802 | diegogalvis682@gmail.com | portfolio-next-tan-five.vercel.app | github.com/Dsgalvist

PROFESSIONAL SUMMARY

Software Development graduate from SAIT with hands-on experience designing and building full-stack, cloud, AI-powered, and data-driven applications. Proficient in React, TypeScript, JavaScript, Python, Node.js, REST APIs, PostgreSQL, Firebase, and Microsoft Azure. Experience includes relational database design, responsive web development, cloud services, AI agents, computer vision, and machine-learning security. Seeking a Software Developer role where strong problem-solving, collaboration, and practical software engineering skills can contribute to production-focused applications.

TECHNICAL SKILLS

Programming Languages: Python, TypeScript, JavaScript, SQL, C#, Java

Frontend Development: React, Next.js, HTML5, CSS3, Tailwind CSS, Responsive Web Design

Backend Development: Node.js, Express.js, Flask, REST APIs, API Integration

Cloud & DevOps: Microsoft Azure, Azure Functions, Azure Blob Storage, Vercel, Docker, Git, GitHub

Databases: PostgreSQL, MySQL, Azure Cosmos DB, Firebase, Firestore, Relational Database Design

AI & Machine Learning: Microsoft Foundry, Azure AI, AI Agents, MediaPipe, SecML, Linear SVM, Adversarial Machine Learning

Tools: Postman, Jira, VS Code, Visual Studio, Figma, Google Colab

EDUCATION

Southern Alberta Institute of Technology (SAIT) - Software Development Diploma | Calgary, AB | Jan 2025 - Aug 2026

Colegio Lausana - Programming & Digital Design | Bogotá, Colombia | Jan 2021 - Nov 2022

SELECTED SOFTWARE PROJECTS

SuperMarkit - Roofing Management Platform | *React, TypeScript, Firebase, PostgreSQL, Azure*

- Collaborated on a full-stack web platform that digitizes inspection requests, orders, cost estimates, inventory, invoices, and reporting workflows.
- Designed and implemented a PostgreSQL relational database with 12 interconnected tables supporting clients, inspectors, administrators, inventory, estimates, invoices, and reports.
- Supported role-based application workflows and database requirements for Firebase authentication and frontend/backend integration.

GestureVision - AI Gesture-Controlled Interface | *Next.js, TypeScript, MediaPipe, Three.js*

- Developed a real-time computer vision web application that converts webcam-based hand tracking into touch-free interface controls.
- Integrated MediaPipe hand landmarks with TypeScript interaction logic and 3D browser experiences to demonstrate human-computer interaction.

SpeakFix (VMIS) - Voice Maintenance Intake System | *Raspberry Pi, Python, Azure, Microsoft Foundry*

- Contributed to a voice-enabled maintenance system that transforms spoken equipment issues into structured digital maintenance tickets.
- Developed manager-facing functionality for reviewing ticket transcripts, status, assignments, confidence scores, and human-review indicators.

Nutritional Insights - Cloud Analytics Platform | *Azure Functions, Blob Storage, Cosmos DB, Node.js, Chart.js*

- Built and integrated cloud application components that transform nutritional data into interactive visualizations and searchable dashboard insights.
- Worked with serverless Azure Functions, Blob Storage, Cosmos DB, REST-based integration, authentication, filtering, search, and responsive UI behavior.

PROFESSIONAL EXPERIENCE

ForConcrete - Junior Web Developer | Self-employed, Remote | Nov 2025 - Jan 2026

Calgary, AB

- Designed and developed a responsive business website using HTML, CSS, and JavaScript based on client requirements.
- Implemented responsive layouts, navigation, and reusable interface components to improve usability across desktop and mobile devices.
- Translated business needs into functional web features and iterated on UI details to strengthen the company's online presence.

Mountain Air Construction LTD - Construction Worker | Contract Part-time | Sep 2025 - May 2026

Calgary, AB | On-site

- Supported fast-paced construction operations while coordinating with team members to complete assigned work safely and on schedule.
- Strengthened transferable skills relevant to software teams, including communication, reliability, adaptability, attention to detail, and practical problem-solving.

TANKECO - Web & Database Designer | Jan 2022 - Dec 2022

Bogota, Colombia

- Led a three-person development team building a website for educational-system products using HTML, CSS, JavaScript, PHP, and MySQL.
- Designed and modeled the MySQL database, connecting application requirements to structured data storage and retrieval.
- Tracked development progress, coordinated deliverables, and prepared project status reports to keep work aligned with requirements and deadlines.

ADDITIONAL TECHNICAL PROJECTS

Android Malware Detection - Machine Learning & Cybersecurity | Python, SecML, Linear SVM, DrebinRed

- Evaluated a Linear SVM Android malware classifier using the DrebinRed dataset; the selected model achieved 98.84% test accuracy.
- Conducted adversarial evasion testing to assess model robustness against malicious feature manipulation and identify security limitations.

AI Support & Triage System | Microsoft Foundry, Azure AI, AI Agents

- Built an AI-driven support workflow using specialized triage and resolution agents for ticket classification, routing decisions, and contextual response generation.
- Configured structured agent outputs and workflow logic to automate common support scenarios while retaining human-review paths.

LaptopHub - Full-Stack Marketplace | Next.js, TypeScript, Firebase

- Built a responsive marketplace application with authentication, advanced filtering, favorites, image uploads, and user-focused interface design.

CERTIFICATIONS

- Python in Practice Certificate - Daxus Latam | Issued Apr 2026
- CCNA: Introduction to Networks - Cisco Networking Academy | Issued May 2025
- Master Python Program - Daxus Latam | In Progress, 2026
- Master Artificial Intelligence - Daxus Latam | In Progress, 2026
- AZ-900: Microsoft Azure Fundamentals - Microsoft Azure / SAIT CPSY 300 | In Progress
- AZ-204: Developing Solutions for Microsoft Azure - Microsoft Azure / SAIT CPSY 300 | In Progress

ADDITIONAL SKILLS

Mobile Development: React Native, Expo, AsyncStorage | UI/UX: Figma | Networking: Cisco Networking | 3D Design: Rhino 8 | Game Development: Godot
